

# TheHEALTHTrust

Let's make Silicon Valley the healthiest region in America

## Board of Trustees

### **Jay D. Pinson, Ph.D**

President, LifeLine Technologies

As educator, corporate leader, consultant and board member, Dr. Pinson has been involved in the growth of Silicon Valley for more than 20 years. He founded or co-founded three companies and has worked on local, state, federal and international initiatives supporting education, training and workforce development. At LifeLine Technologies, Dr. Pinson focuses on developing and marketing products for homeland security and safety. Previously, he was president and founder of the Pinson Institute, a consultant and contractor to industry and government in the areas of technology, business, and workforce development. In addition, Dr. Pinson was president of Applied Global University, a corporate university that trained more than 50,000 employees and customers of Applied Materials, Inc.

Dr. Pinson was Dean of Engineering at San Jose State University from 1979 to 1994, where he was instrumental in developing a high quality engineering education and research program that was the leader in providing engineering talent to Silicon Valley. In 1994, he became Director of Technology for Semiconductor Equipment and Materials International (SEMI), where he administered technology and education programs for 1500 companies worldwide.
